Re: *Versant Power*
Docket No. ER20-1977-000
Revised Annual Transmission Charges Informational Filing

Dear Secretary Bose:

On May 1, 2023, Versant Power submitted to the Federal Energy Regulatory Commission (“Commission”) in the above-referenced docket an informational filing setting forth charges for transmission service under its Open Access Transmission Tariff for Maine Public District (“MPD OATT”) for the upcoming June 1, 2023 to May 31, 2024 rate year (the “2023-2024 MPD Charges”). Subsequently, on May 1, 2023, the Commission approved settlements in the above-referenced docket that impact the 2023-2024 MPD Charges.¹ Accordingly, Versant Power now submits revised 2023-2024 MPD Charges that account for impacts associated with the Commission approved settlements. A copy of this filing is being served on all parties that received service for the initial May 1, 2023 informational filing.

Thank you for your attention to this matter. Please direct any questions to the undersigned.

Respectfully submitted,

/s/ Jeffrey M. Jakubiak
