Dan Lee  
Versant Power  
Maine Public District  
PO Box 932  
Bangor, ME 04402-0932

Dear Dan:

This letter is to inform you that, pursuant to review under Section 8.6 of the Northern Maine Market Rules, no significant adverse effect has been identified with regard to the DER Cluster 113 MW Study.

Having given due consideration, NMISA has determined that implementation of the DERs in the MPD queue will not have a significant adverse effect upon the reliability or operating characteristics of the Transmission Owner's transmission facilities. As more projects become operational, a limited review of the reliability impacts of additional projects in the queue may be required.

Sincerely,

/s/ Ken Belcher
