

BUSINESS HEATING ECO RATE

Character of Service:

Service under this price is available for commercial premises on the existing Rate C with an electric resistance heating system, an electric heat pump system, an electric heat pump water heater or an electric storage space heating system that separately or collectively are capable of heating 50% or more of the premises. This service is available for commercial establishments that have not installed separate metering for heating loads, and is not available for new construction. The Company reserves the right to inspect any facility to ensure eligibility under this price schedule. Customers taking service under this rate schedule are responsible for paying both Distribution Service and Stranded Cost.
